PRELIMINARY AMENDMENT

TECHNOLOGY CENTER 2800

Prior to examination, please amend the application as follows:

In the claims:

Please add the following claims:

53. (new) A method of detecting a bridged tap in a customer line, comprising:
making one-ended electrical measurements on the customer line;
determining one or more admittances of the customer line from the measurements; and
reporting that the customer line has a bridged tap in response to finding a signature of a bridged tap in the one or more admittances.

Sub 3 54. (new) The method of claim 53, wherein the signature is a frequency dependant property of the one or more admittances.
